Founder – Minos Sports Events (Summer 2026 – Present)

Jun 2026 - Present
Athens, GR, Greece

In the summer of 2026, I launched Minos Sports Events, an independent project currently in its pilot phase. The initiative was created to support my professional development and expand my network within the sports event management industry.

The project's first milestone was the successful organization of the **"1st Minos Sports Events - School Football Tournament"** in June 2026, bringing together primary schools from across Athens.

The event provided valuable hands-on experience in event planning, coordination, stakeholder communication, and sports operations.

A highlight video of the tournament is available on the New Official Instagram Account I created:
