PLAYER SUMMARY

Tall, strong and explosive, agile for his size with good top speed. Clean with his left, but uses both, playing mainly from the right and cutting inside; footwork can improve. A combination player who drops deep to receive with his back to goal, then dribbles, links or switches play with his long passing. Reads space well, for himself and for his team-mates, and gets into the box to finish with technique. Combining, the idea is there but not always the execution, that can be off in weight or direction. Final-third choices can be rushed. Presses with intensity, though not effectively. Defending, he reads the moment to win the ball or track a runner, but around the box he is beaten easily.
